OBJECTIVE

Software Engineering student seeking an internship position in systems development. I have hands-on experience building web applications with Laravel and working with containers and relational databases, along with a strong interest in problem-solving through competitive programming. Looking to apply and deepen these skills in a professional environment.

EDUCATION

Software Engineering — PUC Minas (Lourdes campus) *2nd semester — in progress*
Technical Diploma in Systems Development — SENAI CTTI Belo Horizonte *Feb/2025 – Aug/2026 (1,200h)*

PROJECT

Beework — Professional Services Platform (Capstone Project)

- Built a web application in Laravel 10 connecting professional service providers to clients.
- Implemented role-based access control (middlewares such as EnsureRole and EnsureProfessionalApproved) and professional approval workflows.
- Deployed to a production environment (Render.com) with Docker, migrating the database from MySQL to PostgreSQL for hosting compatibility.
- Configured the environment with PHP 8.2 and automated migrations and seeding as part of the deployment process.
- Debugged password hashing issues, email configuration, and date formatting in Blade views.

TECHNICAL SKILLS

- Languages: PHP, Java, C#, Python, C++, JavaScript, Arduino
- Frameworks: Laravel, Spring Boot
- Databases: MySQL, PostgreSQL
- Tools: Docker, Git/GitHub, Laragon
- Operating systems: Windows
- Cloud computing: Huawei Cloud fundamentals (HCIA Cloud Service)
- Office suite: Word, Excel, PowerPoint
- Problem-solving / programming logic: regular practice in competitive programming (Codeforces)

COURSES & CERTIFICATIONS

- Cloud Computing Services — Huawei HCIA Cloud Service, SENAI (40h) — Jan/2026 to Feb/2026
- Office Computing, SENAI (40h) — Jan/2025
- Inclusivity, Fundação Bradesco — Virtual School (1h) — Jun/2024
